A WOMAN DOCTOR says "Elegance is a necessary factor in the future of the race. The average American girl is unfit for matrimony." This may be true, but if we want all girls married from girlhood to somewhere would only result, as thousands do now, Latin American's Vegetable Compound, that simple remedy made from root and herbs—restores the system to a normal healing condition, it would save many lives from which they suffer to diseases in their motherhood might deprive the joy of their lives.

WARM RECEPTION FOR FERGUSON SATURDAY

Friends and Admirers of New Mexico's Congressman Will Turn Out en Masse to Greet Him as He Passes Through.

Plans were taken up today by friends and admirers of Harvey B. Ferguson, congressman for New Mexico, to give him such a welcome Saturday morning when he will be in the city for 30 minutes, for the first time since his trip to Washington, many months ago, as has seldom been extended a returning son. Mr. Ferguson will arrive in the state today and will begin immediately to take an active part in the campaign which will end next Tuesday. Next Monday evening he will speak in Albuquerque. This will be the only authorized speech he will make in the home city during the fight for congressional, state and legislative offices this fall, but it is hoped to induce him to say a few words to the crowd Saturday.

All Mr. Ferguson's speaking dates are in the northbound half of the state for the reason that the central committee in Mesilla and his district wanted to send him through as great a part as possible regardless of the point of completion of the railroad to be visited.

The first speech made by Mr. Ferguson will be at Watson tonight. He will speak at Taos Tuesday and Thursday. Wednesday, afternoon, he will speak at Wagon Mound and that evening he will address a meeting at Las Vegas. Friday he will be in Santa Fe, leaving the valiant Between morning and passing the night on the California limited, spending Saturday in McKinley county and returning to this city Sunday. The committee has got a schedule so definite by the suggestion of senators that may do no better.

Monday night an election-meeting will be held in the Elks theater.

The stereopticon lecture to be given this evening at the Congregational church at 8 o'clock on "England and the British Isles" will be delivered by William Heselden, a native of England. His personal knowledge of the pictures thrown on the screen will add interest to the lecture. These educational lectures are proving popular. They are free to the public.

TRIO OF SUSPECTED FLIRTS WILL BE TRIED TODAY

Women Report That Two Men Pursued Them on Horseback; Find Refuge in a Boarding House.

Two men, charged with being drunks and suspected of having been robbers, and a card man, allegedly charged with robbing one to be tried by Judge Craig in police court this evening. They pleaded not guilty when arraigned this morning.

Joe Quintana and Ramon Ortega of Jose, the two men charged with being drunks, were arrested after two women had reported that they had been pursued by men on horseback. The women reported that two men on horseback started following them, and pursued them in secret, when they came to their hotel. One of the women was pulling a baby carriage, but she ran as energetically as her companion.

Mr. Wood complimented legal and police people, and especially the archdiocese, for their generosity in making donations to the enterprise and urged that this good work go on. He deplored the fact that neither the governor, the secretary of state nor the attorney general, all of whom had been solicited for addresses, were present that they might be impressed with the duty of the state to care for the fatherless and concluded with a brilliant appreciation of the sisters of St. Francis who, at the request of local people, had taken upon the sole work of maintaining and supervising the orphanage.

Archbishop J. B. Pivat spoke briefly of the measure he felt at securing the creation of the first step taken by the community toward an organized care for the orphans and also emphasized the need for proper care for the young that they might grow up good and useful citizens.

The women took refuge in Mrs. Matilda Schubert's boarding house, 111 South Broadway. The men got off their horses and knocked at the door. Failing of admittance, they left in a short time, and boarders reported them home.

Quintana and Ortega were arrested by Captain O'Drudy, who said that they were the women's pursuers. The names of the women were not known by the police.

Edward Marino, the name of the third suspect, O'Drudy also arrest on him. He is said to be a mad filly.

Conditions he thought, would get worse, and he didn't look for any improvement as a result of the demand created by the European war because the abnormal demand from abroad would probably make a shortage here and so put prices up.
